

MWFA

Mid-West Fastener Association

MWFA FASTENER SHOW DELIVERS

On June 4th, the MWFA hosted their 37th Annual Fastener Show. The location of this show offers exhibitors and attendees the opportunity to meet in the heart of the fastener industry. Exhibitors from across the country and Taiwan were on hand to feature products and services. With there being a great fastener concentration in the Chicago area, companies were able to send several attendees without incurring travel expenses.

Prior to the show, a very informative panel discussion was held. The panel consisting of Tabitha Herbst of Central Wire, George Hunt of Brighton Best, Charlie Kerr of Kerr Lakeside and Paul Cincinello of Worldwide Logistics drew a large audience interested in the future of the fastener market with proposed tariffs as well as other inflationary issues. Read more about this discussion, in this newsletter, in the Panel Discussion article provide by John Wolz of GlobalFastenerNews.com. The best way to be informed of what is going on in the industry is to talk to those keeping a close watch on the pulse of the industry so the audience was very fortunate to learn from our panelists.

Following the show the MWFA and sponsors hosted the popular Fastener Bash, as named by the MWFA. Harris Kal, formerly of Happy Days, entertained the crowd while they enjoyed cocktails and dinner. We sure saw the industry let loose playing games, building towers, and creating a fun show for the observers. The fastener industry family especially enjoyed playing Family Feud!!

At the Fastener Bash, Wayne Wishnew took a minute to thank Bob Baer of Abbott Interfast for his leadership as MWFA President the last two years. Bob continued to lead the association to new successes while working with a strong Board to continue the association's strong role in our industry.

The MWFA is a non-profit association working hard to serve its members and the fastener industry. This show is one of the great opportunities the MWFA offers and in return gives back to the industry through education and scholarships. The MWFA sends out a huge thank you to those who supported this event and appreciate the benefits and great networking of associations.

We appreciate our sponsors:

PRESIDENT'S NOTE

**Wayne Wishnew/
XL Screw Corp.**

I hope this newsletter finds you all well. So far, the MWFA is having a great(hot) summer.

Despite all of the talk and uncertainty of possible tariffs and their effects on our industry, business still seems to be steady.

In early June, we had a really successful tabletop show and an outstanding pre show panel discussion. The panel covered many relevant and current topics facing not only our industry but, most other industries as well. Some of the topics were steel/nut tariffs and the effects on domestic manufacturing, California Proposition 65 compliance, ocean/inland freight, overseas pricing along with excellent questions from the audience. I was very proud to hear positive comments about the panel's knowledge, expertise and how well prepared they were to expertly answer all questions. The audience certainly received valuable information and ideas. I would like to thank these four outstanding and talented people on the panel: Tabitha Herbst of Central Wire, George Hunt of Brighton Best, Charlie Kerr of Kerr Lakeside and Paul Cincinello of Worldwide Logistics.

The Show featured 108 exhibitors. After talking with each exhibitor, I was very pleased to hear they felt the show was busy and successful for them. Many of them actually thanked me for the chance to be part of a successful show. This, like all MWFA shows, is an ideal time to connect

with suppliers, customers and key business partners with whom you may not have had face-to-face access. The opportunities at these MWFA shows/events are infinite. The MWFA offers each MWFA member the chance for success and growth by keeping in touch with suppliers and customers.

The day following the Show, the MWFA hosted our annual Golf Outing at the Eaglewood Resort. The MWFA golf outings are historically, one of the largest in the industry. This year, we were able to bring together 140 morning and afternoon golfers followed by dinner and prizes. We had many contests and a Bazooka tee shot. I think this may have been my only straight shot of the day. This made for great fun.

Many thanks to our contest and green/tee sponsors. With the support of the MWFA golf committee and our sponsors, all had a good time. On behalf of the MWFA Board, I would like to thank all of you and our many generous sponsors that supported the Show and Golf Outing. Our membership is the backbone of our association.

Our mission states "Where education is a priority". Our Golf Outing and Show are a huge benefit to our education programs and the MWFA Scholarship Fund. Please keep our students in mind when deciding which shows you choose to budget to exhibit or attend.

We have so many more events and opportunities for the near future. Please mark your calendars for the following dates. August 20-24 is Fastener Training week. We have another MWFA Mixer at Real

Time Sports in Elk Grove Village on August 23rd. Please plan on attending this strictly social, networking event. There will be free drinks and appetizers sponsored by the MWFA and a host of kind sponsors.

On October 11th, we will be hosting a PPAP/Print reading seminar. Our instructor provides an extensive background and expertise. This is a must attend seminar for all in the fastener industry no matter your level of fastener knowledge.

November 8th is our Scholarship awards dinner. Save the date, we have a great, great speaker planned for this event. More importantly, we will be awarding scholarships to bright and deserving students.

The annual Holiday Party will held December 13th. We have many fun activities planned for this event, which always proves to be fun.

It's not too early to register for our 2019 Fastener Tech Show in Rosemont, IL. We will be offering many different features at this important event. Exhibitor registration is open on our website or see inside this newsletter for registration forms.

Please remember, all of our events result in opportunities for employees, students and parents of the MWFA to further their education. I hope you enjoy the rest of your summer. I look forward to seeing you at our upcoming events.

Thank you all for all you do for the MWFA.

*Sincerely,
Wayne Wishnew
President, MWFA*

MWFA SCHOLARSHIP APPLICATIONS DUE SEPTEMBER 15TH

It's time to think about passing the word, to your employees/coworkers, to take advantage of the opportunity for students to apply for a MWFA Scholarship. Scholarships will be awarded in the amounts of \$1,500-\$4,000.

The son or daughter (natural or step or dependent child), as well as a spouse of an employee, or employee of a dues-paid MWFA member are eligible to apply for a scholarship. This applies to all MWFA members who have been members for one calendar year or more.

An application and rules for applicants may be downloaded at www.mwfa.net.

MWFA PANEL: NO CHANCE FASTENER PRICES DROPPING

By John Wolz
editor@GlobalFastenerNews.com

The Mid-West Fastener Association panel program called for the subject to be "Fastener Inflation," but the tariff element of rising prices from steel to screws dominated the discussion.

Charles Kerr, CEO of third-generation socket screw domestic manufacturer Kerr Lakeside, cited a steel price going from \$25 in Q4 2017 to \$39 in May 2018 as an example of what the threat of tariffs do. Scrap steel in 2015 was \$4.14/hundred weight. Now in 2018 it is \$9.70. "That's got to be reflected in the selling price of product," Kerr noted. "A lot of this is supply-driven in anticipation of tariffs," he observed.

Panic buying is adding to the supply problem, said Paul Cincinello, who has been in steel brokerage for 30+ years and said he "cut his teeth in the steel industry on fastener products in Rockford." He is president of Worldwide Logistics. Cincinello observed that suppliers have had to "protect inventory from the panic buying of past 30 days."

Tabitha Herbst, sales and commercial development for Central Wire, said "232 involves every part of our every day." How much are nuts a "direct threat to security?" she asked.

The Trump administration has justified steel and aluminum tariffs after the

Commerce Department decided that steel and aluminum imports "threaten to impair the national security," as defined by Section 232 of the Trade Expansion Act of 1962.

"Friday, June 15th is now d-day," George Hunt, regional manager for Brighton-Best International, declared. "You will see price increases on Monday, June 18."

On May 29 the Trump administration decided to proceed with its proposal to impose 25% tariffs on \$50 billion worth of goods from China. Meant to pressure China on trade issues, the 301 tariffs involve a range of products exported to the U.S., from flat screen TVs to medical devices.

Currently all nuts (HS code 73181600), including inch, metric, and locking nuts, are on the list of goods that will receive the 25% duty. The final list of items will be announced on June 15, with tariffs imposed shortly thereafter.

"Are finished nuts 'intellectual property?'" Hunt asked of the 301 rationale. "Everyone here knows 'No!' but the administration had to get to \$50 billion."

Kerr noted that "long term, loyal customers will get product before others who couldn't find fasteners anywhere else."

Kerr pointed out that suppliers have to consider replacement costs and that increases prices with the tariff cloud hanging over. There are many questions on what tariffs will ultimately cover. For example, Kerr asked if tariffs will be

applied to the steel or the processing too?

None of the panelists expressed support for tariffs. The Bush tariffs, implemented in 2002, led to the loss of 200,000+ U.S. jobs, Kerr said. The consequences of the 232 steel tariffs could be even worse for U.S. companies because the 2002 tariffs were not applied to Canada and Mexico.

Herbst noted that wire suppliers have to price on market value now. It isn't just the threat of tariffs, Herbst pointed out: Operational costs, recruiting employees in the low-unemployment market and overtime are raising prices.

When costs go up, suppliers "will pass it on," Herbst noted.

Customers need to know that lead times are up from eight weeks to 12 weeks, Herbst added.

There is no chance of prices going down.

"Demand is up," Hunt explained. "Vendors are not lowering prices."

There are other factors in prices than tariffs and demand, Kerr pointed out. He cited supply of electrodes for steel processing as an example. China essentially controls the supply, he explained.

It is vital to talk to your customers and have an "open and clear line of communication," Kerr advised.

Ultimately on the whole tariff issue, "the right hand doesn't know what the left hand is doing," Kerr declared.

MAY EVENTS

May was a busy month for the MWFA.

On May 10th they held their Essentials of Metallurgy-Heat Treating and Plating class. This class was on site at two locations: Morgan Ohare and SWD Corp. We appreciate them being gracious enough to provide plant tours and instructors. This year's class was a sold out event proving this is a very beneficial class for the industry.

Following the class, a MWFA Mixer was held at Eaglewood Resort. MWFA hosted this by providing drinks, appetizers and a roulette table for entertainment. A preview to plans for the holiday party.

We thank the sponsors for this event:

Gold

Brighton Best Int'l

Silver

BTM Manufacturing
Certified Fastener & Industrial Supply
Delta Secondary
Kerr Lakeside Inc.
Riverdale Plating & Heat Treat LLC
Sems and Specials

XL Screw

On May 17th, the MWFA joined to the NCFA to provide a Print Reading class prior to their Distributor Social. This gave NCFA members the opportunity to attend an education session without the travel. Responses to this class were great, attendees really enjoyed instruction by Mike Henry/MKH Sales. Mikes' engineering experience provides a great print reading base for students.

Keep informed as to upcoming events. Visit mwfa.net often.

EXHIBITOR REGISTRATION FORMS & FLOOR PLAN ARE ONLINE

June 28, 2018, Akron, OH and Lake Zurich, USA. FASTENER

TECH™ '19, the seventh staging of "The All-Fastener-Industry Event in the Heart-of-the-Fastener Industry", is pleased to announce that exhibitor registration is open and forms are available online at www.mwfa.net and www.fastenertech.com/fastenertech.asp. In addition, the official Floor Plan is posted on-line for booth selection purposes.

The event is scheduled to take place in Rosemont (Chicago), IL, USA, June 3 to 5, 2019 at the Donald E. Stephens Convention Center. FASTENER TECH™ '19 will offer attendees and exhibitors a valuable, cost-effective and easy-to-attend event that provides benefits to fastener manufacturers, distributors, users and suppliers. FASTENER TECH™ is a biennial event, and once again in 2019 it will be co-located with SUR/FIN®, the annual conference and exhibition for surface finishing professionals, which is organized by the National Association for Surface Finishing, Washington, DC, USA, www.nasf.org.

FASTENER TECH '19 will feature an Exhibition, Education Seminars, an All-Industry Reception, and other networking opportunities. The preliminary schedule is as follows:

- Education Seminars: June 3, 4 and 5th, 2019
- Exhibition: June 4 and 5, 2019
- All-Industry Reception: June 4, 2019

As a trade event, FASTENER TECH™ '19 will be unique on several fronts, including the following: the relatively low-cost and ease-of-exhibiting at and attending the show, the all-industry focus, the heart-of-the-industry location, and a high level of participation from fastener industry associations.

FASTENER TECH™ '19 is being produced by Fastener Technology International magazine, Akron, OH, USA, and the Mid-West Fastener Association (MWFA), Lake Zurich, IL, USA. The most recent FASTENER TECH™ was held in June 2017, also at the Donald E. Stephens Convention Center in Rosemont (Chicago), IL, USA, and it provided its visitors with direct supplier access, networking opportunities, business intelligence, social programming and technical education related to making, distributing and using all types of mechanical fasteners. In addition, the 2017 event included the debut edition of the Fastener Industry Summit, which was organized by the Fastener Industry Coalition, www.fastenercoalition.org.

Fastener Technology International (FTI) is a bimonthly international technical magazine for manufacturers, distributors and users of all types of fasteners. The print edition is delivered to thousands of subscribers in more than 90 countries, and the digital edition is available around-the-clock at www.fastenertech.com. Additional publications include a monthly newsletter, the Fastener News Report, and the annual FTI Buyers' Guide.

The Mid-West Fastener Association (MWFA) has been representing and serving all segments of the fastener industry for more than half-a-century. MWFA members include fastener manufacturers, distributors, importers and industry suppliers. Details are available at www.mwfa.net.

Additional FASTENER TECH™ details and a flipbook edition of the "2017 Exhibition Directory" are available at: www.fastenertech.com/fastenertech.asp.

Floor plan and registration form for Fastener Tech also available on pages X in this newsletter.

"FASTENER TECH™: The Fastener Show produced by the Fastener Industry for the Fastener Industry"

Find a copy of the FT '19 Registration form and floor plan on pages 11 and 12.

JOIN FTI & IFI FOR 5 DAYS OF FASTENER INDUSTRY TRAINING!

TRAINING
INSTITUTE

FASTENER TRAINING WEEK

AUGUST 20-24, 2018 - CHICAGO, IL

Hosted by the Mid-West Fastener Association Where Education is a Priority

Fastener Training Week is an intensive version of the acclaimed FTI Certified Fastener Specialist™ (CFS) advanced technical training program. Instead of seven separate one-day classes, FTW consists of five intensive days of education and plant tours. After completing the training and passing a final exam, attendees are eligible for CFS designation!

FIVE DAYS OF INVALUABLE INDUSTRY TRAINING IN A SMALL GROUP ENVIRONMENT

- **Thread and Material Specifications**
- **Process and Dimensional Specifications**
- **Quality Assurance Systems and Specifications**
- **Lot Traceability and Test Reports**
- **Print Reading and Tolerances**
- **Thread Gaging and Dimensional Inspection**
- **Torque Tension**
- **Full Day of Off-Site Plant Tours**

"I had a fantastic class last week! I got far more out of it than I expected and I had high hopes. All of the instructors were amazing and we had a pretty good group of students."

"Thank you! The training was a very valuable experience for me. I feel I am better equipped for my job now, as I'll be able to assist my co-workers with any questions they may have."

**THE DIFFERENCE BETWEEN YOU AND YOUR COMPETITION
IS EMPLOYEE SKILL, KNOWLEDGE, AND PRODUCTIVITY!**

Paid by August 6: \$3300 first person per company, \$2800 each additional.

Additional \$500 discount for association members (Pac-West, NFDA, IFI, MWFA, NCFA.)

Can't make it to Chicago? Join us for Fastener Training Week - Cleveland, December 3-7, 2018!

SWD Inc. Begins Work on 25,000 sq. ft. Extension

On June 7th, 2018, SWD Inc. held a groundbreaking ceremony to celebrate a 26,000 sq. ft. expansion of their existing 160,000 sq. ft. facility. In attendance were Village of Addison Officials, representatives from BMO Harris Bank, and members of Laub Construction. With this addition, SWD projects growth of 15% in year-over-year sales and expects that anywhere from 12-15 new positions will be created.

The current expansion is the second phase of a project that added 60,000 sq. ft. in 2012. The extra 26,000 sq. ft. will help with process flow in this state-of-the-art coating production facility. It has been designed to allow for more warehousing with an automated racking system for part storage along with new office space for centralized shipping, receiving, and order entry processing.

The 3 million dollar addition follows a series of investments. This expansion is aligned with SWD's mission to "Bring our customers the highest level of quality and service in the metal finishing industry". SWD Inc. specializes in Black Oxide, Passivation of Stainless Steel, Phosphate coatings (Zinc, Manganese & Iron), Fastener Sorting and licensed application of High Corrosion Magni, Dörken and Yuken coating systems. Last year, SWD introduced a state-of-the-art robotic organic coating line with unprecedented production capabilities.

This project is expected to take six months and should be finished by November 2018.

EFC Accelerates Growth Into Mexico ST. LOUIS, MISSOURI – June 15, 2018

EFC International, a leading supplier of engineered fasteners, with their corporate office in St. Louis, Missouri, continues to expand their global presence with the establishment of their office and warehouse in Mexico, EFC Global, S de RL de CV.

"Our recently established legal entity and operations in Mexico, including a warehouse in Querétaro, outside sales engineers, customer service and support staff in Mexico, enables EFC to enhance our service level in the region. We're able to respond more quickly and hold inventory in closer proximity to our customer base. We also are positioned to act as a key channel partner into Mexico for our strategic partner suppliers. With our locations in the United States, Mexico, Germany, China and South Korea, EFC truly has become a global leader in the supply of engineered fasteners and components. EFC enables multi-national OEM customers and suppliers to utilize our services on multiple continents, taking advantage of our global network to mitigate supply chain risks and improve

local service," said Mary Becker, Vice President of North American Sales.

Expanding its global footprint and investing in key strategic global markets, EFC ensures both supplier and customer needs are met. EFC's robust international growth is a tribute to the EFC team and to the strong international reputation of the world-class manufacturers who they have partnered with. These partnerships ensure customers receive the high-quality service they've come to expect from EFC – anywhere in the world.

EFC International is a leading supplier of specialty engineered metal, plastic, cold-formed, spring steel stampings, electrical and assembled component parts to the OEM and Distribution market places.
