

# **Production Part Approval Process (PPAP) & Corrective Action Workshop | October 17th 2019**

**Join Us For One or Both Workshops**

See pricing under fees

Mid-West Fastener Association

*Where Education is a Priority*

Holiday Inn, Elk Grove, Illinois

This one day workshop provides participants with an understanding of PPAPs. PPAPs are now used for many industries besides the automotive industry. You will learn the relationship between PPAP and Quality Planning, running parts for PPAP evaluation, detailed review, and the specific requirements for PPAP, customer notifications and submission requirements for products and process changes. Advance PPAP session will cover : IMDS details, Customer specific requirements (such as Ford Capacity Analysis Report) as well as core tools including: FMEA, Control Plan, SPC and MSA.

The afternoon session will be covering Corrective Actions, learn about tools to find True Root Cause, proper containment, and the different forms used throughout the industry to accomplish corrections to processes. **Bring your Corrective Action problem and let the group assist you in solving it. This will assist you with the process of handling future case studies that hit your desk.**

## **Who Should Attend:**

- Purchasing
- Plant Manager
- Quality Managers and Professionals
- QA Technicians
- Supplier Quality Engineers
- Internal Auditors
- Process Managers
- Manufacturing Engineers
- Sales Engineers

## **Objectives:**

- Provide a good understanding of each step of the PPAP process to everyone involved.
- Gain Knowledge within the sections of a Level 1,2,3,4,5 PPAP.
- Provide understanding to identify True Root Cause and Tools for mistake proofing processes within your companies.
- Have fun while learning!

## **About the Instructors:**

Don Nemecek is the Quality Manager at SWD Inc. for the past year. He has a Bachelor of Science Degree from Loyola University of Chicago. Don has been in the fastener manufacturing / distribution industry for 15 years and has been in a quality function his entire fastener career.
